VGA & PICO384 – Precision Thermal Surveillance

VGA – High-Resolution, Long-Range Monitoring

Designed for large industrial plants, perimeter security, and critical infrastructure where wide-area coverage, longer detection ranges, and clear thermal imaging are essential.

PICO384 – Cost-Effective, Reliable Monitoring

An ideal solution for building security, small and medium-sized industrial facilities, and urban surveillance systems, offering an excellent balance of performance, efficiency, and affordability.

APPLICATIONS

Defense & Perimeter Security

Detect intruders at medium to long distances, even in complete darkness. Ideal for military installations, border security, airports, and seaports.

Industrial Safety & Fire Prevention

Identify abnormal heat buildup and potential fire hazards at an early stage in power plants, chemical facilities, and electrical rooms.

Smart Surveillance & Traffic Monitoring

Enhance nighttime security in urban areas and monitor traffic conditions in challenging weather, including fog and heavy rain.
